

Freight services

Consignments can be forwarded by air, sea and road throughout the world. Skilled assistance with forwarding problems is available in-house including both export and import as part of our dedicated client services.

BY SEA

Expertise in container loading means that every inch of the container is utilised.

LCL, FCL, conventional or Roll On – Roll Off ocean freight services are selected to meet your requirements.

As an independent, John Pipe International can negotiate the best rates and service with any shipping line.
